SUMMARY

Final-year BCA student and aspiring Full Stack Developer with hands-on experience building web applications using HTML5, CSS3, JavaScript, Node.js, Express.js and MongoDB. Skilled in designing RESTful APIs, implementing user authentication and creating responsive interfaces. Seeking a Full Stack Developer Internship to apply technical skills, collaborate with a development team and grow through real-world, production-level work.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Responsive Web Design, Flexbox, CSS Grid, Media Queries

Backend: Node.js, Express.js, RESTful APIs, CRUD Operations, JSON, Passport.js (Authentication & Authorization)

Database: MongoDB, Mongoose, MySQL

Tools: Git, GitHub, VS Code, Hoppscotch (API Testing), Cloudinary

PROJECTS

SkillNest – Tech Learning Guidance Platform | Sep 2026 | GitHub

Tech: HTML5, CSS3, JavaScript, Node.js, Express.js, MongoDB, Mongoose, Passport.js, Cloudinary

- Built a social platform where learners and developers share posts by domain to discover which technologies to learn now and which will be in demand.
- Engineered RESTful APIs with Node.js, Express.js and MongoDB/Mongoose (CRUD) for user and post management.
- Implemented secure signup/login with Passport.js authentication and image uploads through Cloudinary.
- Developed domain-based search and a responsive frontend to filter posts by areas such as web development, AI and cloud.

Airbnb Clone – Property Listing Platform | Aug 2025 | GitHub

Tech: HTML5, CSS3, Bootstrap, JavaScript, Node.js, Express.js, MongoDB, Mongoose

- Developed a full-stack rental platform with CRUD operations so users can create, view, edit and delete property listings.
- Designed Mongoose schemas on MongoDB and built Express.js routes for end-to-end data handling.
- Secured access with user authentication (signup, login, logout) and a responsive Bootstrap interface for mobile and desktop.

Real-Time Weather Detection – State-wise Weather App | Aug 2026 | GitHub

Tech: HTML5, CSS3, JavaScript, Weather API

- Built a weather app that shows live weather for a selected state using only HTML, CSS and JavaScript.
- Used JavaScript to fetch data from a weather API and display temperature, humidity and conditions on the page.
- Created a clean, responsive interface for quick state selection and easy viewing across devices.

EDUCATION

Bachelor of Computer Application (BCA) – SB College of Management Studies, Bangalore City University | 2024 – 2027 (Expected)

- SGPA: 8 / 10

Higher Secondary (Class XII) – Dalanath High School, WBBSE | 2024 | 56%
